

H.O.M

MAKE YOUR VISION A REALITY

COMPANY PROFILE

H.O.M
MAKE YOUR VISION A REALITY

About Us

H.O.M company was established in 2010 as a business specializing in construction, MEP, contracting, total facility management, and industrial solutions.

H.O.M takes pride in being a customer-oriented company that is passionate about delivering high-quality general contracting & facility services.

H.O.M
MAKE YOUR VISION A REALITY

Our Vision:

To be one of the most prestigious companies in Egypt in the field of construction & total facility management.

Our Mission:

H.O.M Aims to provide its engineering & facility management services to the Egyptian market at the highest quality at a competitive cost to satisfy customer needs and meet their expectation.

Our Values:

Safety

To never compromise safety

Quality

Building excellence

Pragmatic

Problem-solving in a realistic way

Innovation

We collaborate to innovate and deliver the highest expertise

Customer Satisfaction

We listen and build trusting relationships and we stand behind our words

Delivery

We promise and deliver

H.O.M
MAKE YOUR VISION A REALITY

WHY H.O.M?

- We do and always aim to provide the technical and maintenance options that support your day-to-day business.
- Our innovative and unique service delivery strategy means all of our clients get a 100% personalized and tailor-made service to meet their needs.
- We deliver turn-key projects and around-the-clock, quickly, and efficiently, hard and soft services with international standards.
- We plan and look for every opportunity to prolong the lifeline of your property or investment.

Sustainability

H.O.M aims at mitigating the impact of construction on the environment through green and sustainable standards.

Our digital tools and monitoring technology offer our customers energy-efficient solutions to help drive a long-term, green, and sustainable future. And it includes:

- Provide green and sustainable design services, and MEP building services (Electro-Mechanical works).
- Provide consultations according to LEED and green international standards.
- Utilize value engineering by lowering energy costs (energy-saving solutions) and maintaining functionality.
- Offer LEED qualified services, and project management based on LEED guidelines.

Scope of Work:

- MEP:

1. HVAC (Heating system, ventilation system, air cooling system, water cooling system, VRV, VRF system, DX concealed, package, rooftop, and splits system, duct system, air outlets)
2. Cold rooms (refrigeration and freezing systems)
3. Compressed air system
4. Industrial / Medical gases
5. Firefighting (gas system – water system)
6. Plumbing (water Supply – drainage – Medical gas Pipelines)
7. Electrical (Power – lighting – low current)

- General Contracting and soft Construction:

Fine finishes.

- Civil Engineering:

Steel Structure, Partitions works, Walls finishes, Floors, Gypsum board, Doors & windows, Décor & furniture, Fountain system, Swimming pool system.

- Electro-Mechanical Systems:

HVAC, Firefighting system, Plumbing & swimming Pools, Medical Pipeline system, Control and Automation

What We Do:

Total Facility Management:

- Hard Services:

such as Construction, MEP Contracting, mechanical, electrical, HVAC, fabric maintenance, and small works and projects.

- Soft Services:

Cleaning, front of residential buildings, and security.

H.O.M utilizes **Integrated Management** to deliver clear management, transparent costs, seamless work, and easy handover. Conforming to CDM regulations for health and safety.

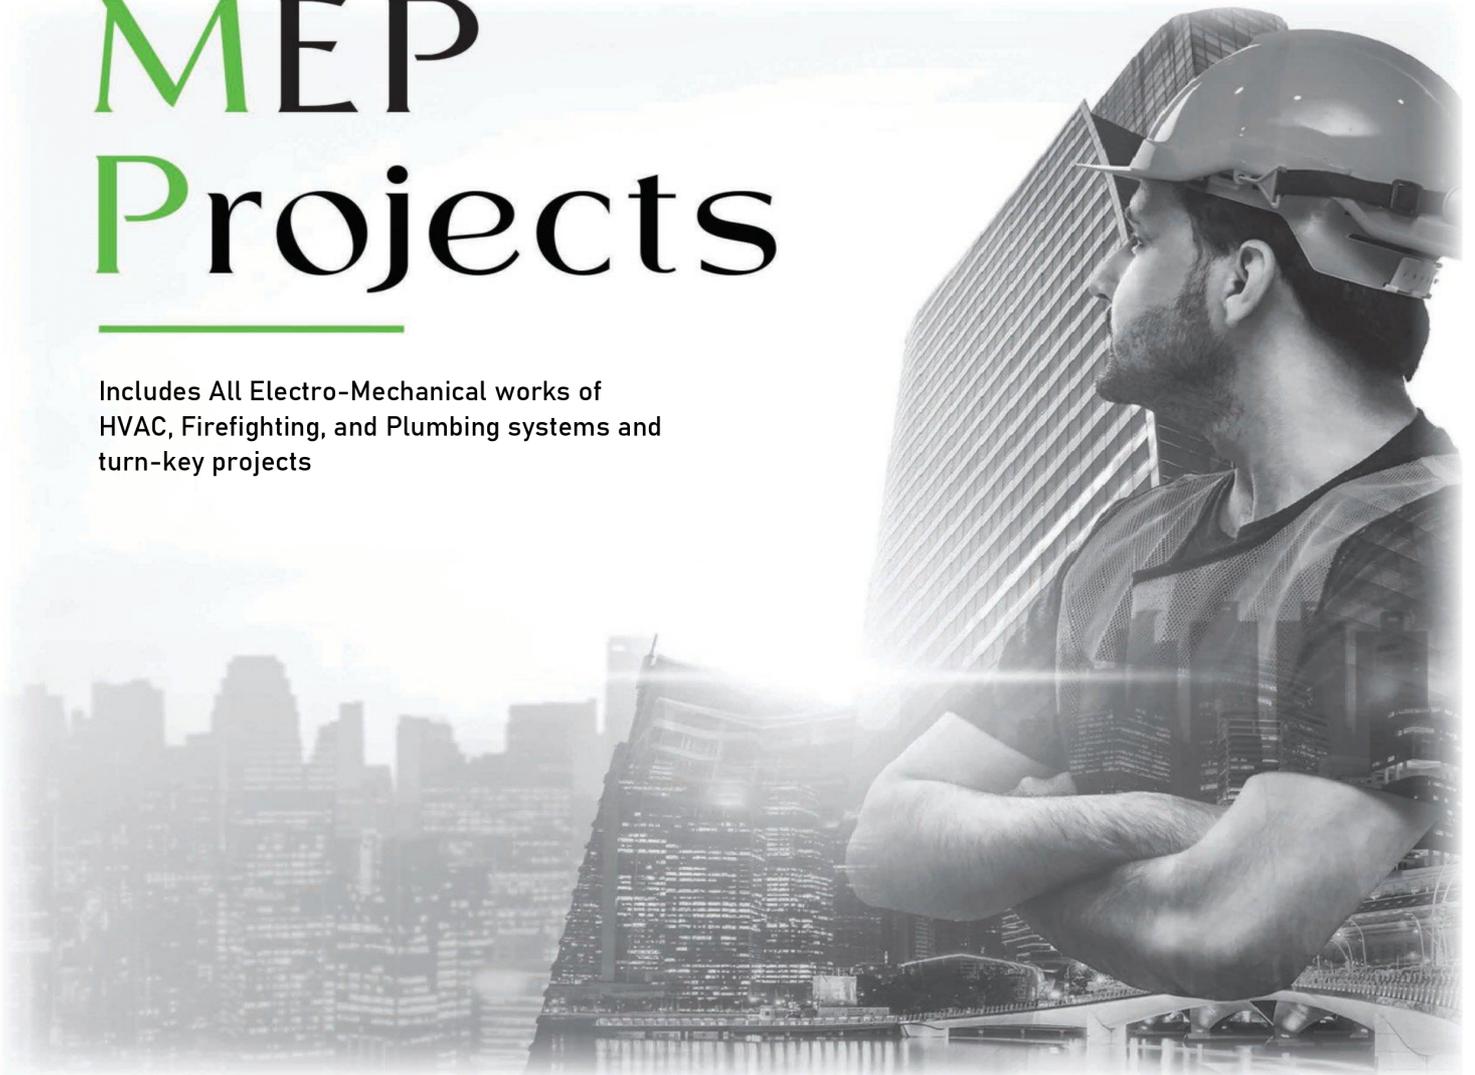

H.O.M utilizes **Value Engineering** in a systematic and organized approach to provide the necessary functions in a project at the lowest cost. By promoting the substitution of materials and methods with less expensive alternatives, without sacrificing functionality

H.O.M
MAKE YOUR VISION A REALITY

MEP Projects

Includes All Electro-Mechanical works of
HVAC, Firefighting, and Plumbing systems and
turn-key projects

ARC Business Park - Smart Village

HVAC works:

Supplying installing and commissioning a complete system of air condition system.

Chilled water pump, Water treatment, Fresh air handling unit, Fan coil unit, DX hi wall split unit, Fans, Exhaust fans, Fresh air, fans, Pipe and fittings, Valves, Ductwork, Ductwork insulation, Air distribution, Air curtain, Testing and balancing, Building management system works.

Firefighting:

Piping and fitting materials, Sprinkler system, Piping for zone control unit drain, Valves, Fire standpipe system, Carbon dioxide extinguishing system, Fm-200 clean agent extinguishing System, Extinguishers, Automatic fire search, Siamese connections

Plumbing works:

Internal drainage system, Rainwater drainage system, Air-conditioning drainage system, Internal water supply system

Other MEP Projects

Vacsera Association for vaccination
For The Ministry of Health

EXXON Mobil: Lubricants Lab

CocaCola Egypt

Electro-Mechanical

Works Projects

- HVAC works including duct works, and installation of Heating, ventilation, and Cooling systems.
- Firefighting systems.
- Control & Automation.

Carrefour El-Obour, Helwan, El-Moqattam,
Tiba, El-Maadi, City Center Almaza, Dandy Mall

HVAC Works:

Supply and install chilled water air handling unit supply and install dx-cooling coil & dx-condensing unit & maintenance.

Works supply and installation of DX-air handling unit

Perform a performance test for the air handling

Unit and maintenance works.

Firefighting system:

Supply and install firefighting system for hoods supply and install stainless steel kitchen hood

Complete with all standard accessories supply and install firefighting system for the hood firefighting system for control panels. Type fire search.

Client: Carrefour

Role: Main Contractor

HVAC works:

- Supplying, installing, connecting, testing and commissioning of two pipe ceiling mounted chilled water fan coil units, c/w chilled water coil, fan, filter, valves, 2-way control valve control, seamless black steel pipes chilled water piping networks C/WS supports, fittings, flexible connections.
- Supplying, installing, connecting, testing and commissioning of water treatment for chilled water system. of glass wool insulation for chilled water piping network, of galvanized steel sheet metal-duct work as specified and as indicated on drawings c/w supports, canvass connection, splitter dampers, volume dampers, plenum boxes fire dampers, flexible connections, of glass wool insulation for ductwork, of internal acoustics lining of 13mm duct thermal.
- Supplying and provision of testing, balancing the Commissioning of the HVAC system including providing consumable materials, workmanship and equipment required to measure.

Firefighting works:

- Supplying, installing, connecting and testing of seamless black steel fire protection piping system complete, including pipes fittings, supports hangers, sleeves, inserts painting, and sprinkler OS & Y gate valve size: 2"

Fire alarm system works:

- Supplying, installing, connecting and testing alarm detectors including EMT conduits, shielding cables.
- Supply and install photoelectric smoke detectors complete with their base.

Fire alarm panel:

Supply, installation, testing and commissioning Fire alarm panel FAP, conventional type.

Detectors:

Supply and install photoelectric smoke and heat detector complete with its base and all its accessories.

Call points:

Supplying, installing, connecting and Testing of led indicator lamps, fire alarm, siren with strobe light, and fire alarm manual station with double-action

Fire alarm Network and Outlets:

Supplying, installing, connecting and testing alarm outlets including EMT conduits, shielding cables, and all necessary accessories.

Client: I-ZAM

Role: Main Contractor

HVAC works:

Supplying, installing, connecting, testing and commission of two pipe ceiling mounted chilled water fan coil units, seamless black steel pipes chilled water piping networks, water treatment for chilled water system, galvanized steel sheet metal-duct works, glass wool insulation for ductwork, and air outlets.

Firefighting works:

Supplying, installing, connecting and testing of seamless black steel fire protection piping system, and 15 mm pendent sprinkler heads.

Fire alarm system works:

Supplying, installing, connecting and testing alarm detectors, installing photoelectric smoke detector and heat detector.

Client: Mivida

Role: Main Contractor

HVAC:

Supply, return, exhaust and fresh air galvanized steel ducts, aluminum Cladding, protection against Vapor barrier and Fungicides, installed connected and tested complete with, flexible connection volume damper, fiberglass blanket duct insulation for supply, fresh air and return ductwork.

Firefighting:

Supply, installation, connecting, testing and commissioning of firefighting pump room including electrical pump, diesel pump, jockey pump, Water- Based Fire-Suppression Systems Piping, Galvanized Steel Pipes including all accessories such as zone control station with all its valves, sprinklers and fire hose cabinet.

Electrical Works:

Supply, installing all electrical and light current systems.

Role: Main Contractor

Other Electro-Mechanical Projects

- Cairo Airport
- Sharm El-Sheikh Airport
- Asyut Airport
- Hurghada Airport
- Abu Ghazala Hotel
- CocaCola Atlantic

Maintenance Projects

H.O.M
MAKE YOUR VISION A REALITY

2 Maintenance packaged units:

Supply and install evaporator blower for the Evaporator unit series: 40ab 250-k. Including dismantling of the old one.

Soft facility:

- Housekeepers and supervisors
- Spiders

Client: EJAD

Role: Main Contractor

GARDEN 8

Fire pumps:

- Maintenance, refilling of cooling liquid, Refilling of diesel motor oil
- Diesel motor filter.
- Motor air vent.
- Supplying upright sprinkler heads, brass finished, glass bulb

Fire alarm:

- Maintenance
- Addressable fire alarm system

Firefighting maintenance:

- Fire pumps

Grease trap maintenance:

- Monthly maintenance cleaning program for grease traps.

Client: Misr Italy

Role: Main Contractor

Maintenance works:

Monthly maintenance program for:

- Air handling units
- Chillers
- Pumps
- Cooling towers
- Medical Gas Pipelines
- Firefighting system

Role: Main Contractor

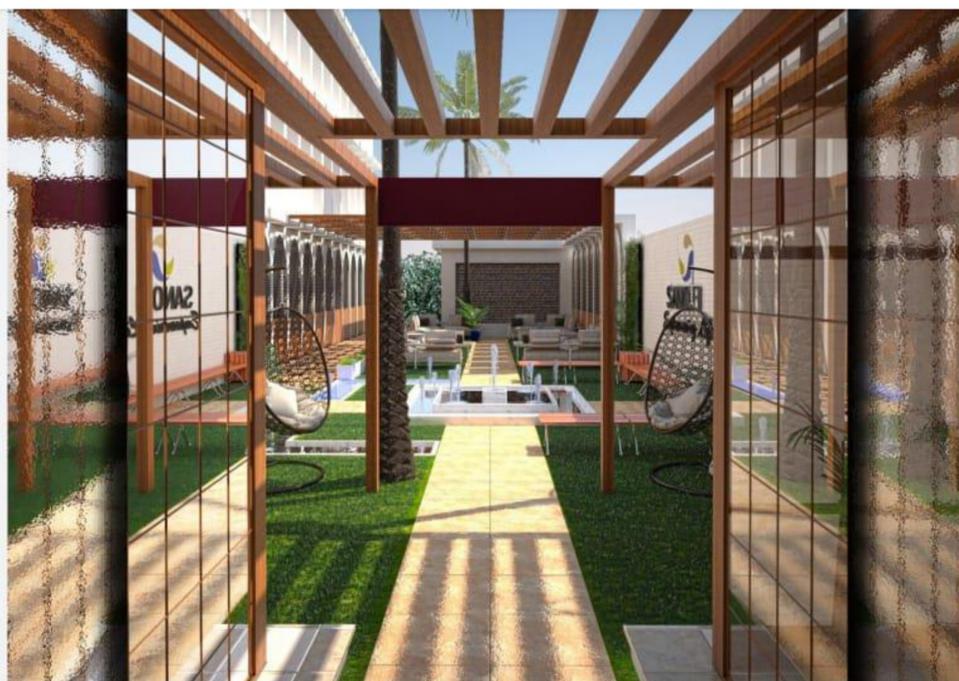

Other Maintenance Projects

- DHL Storage Spaces
- Viatris
- Carrefour El-Obour
- Awlad Ragab Supermarket
- Original Marines Stores
- Bakier Library
- Exxon Mobil
- L'OREAL
- Amal Petroleum
- Pico for Electronics
- Saudi-Egyptian
- Sanofi coffee break area
- Mars
- CocaCola Atlantic
